## SMART WORDS LEVEL B INTRODUCTORY PHRASES

### NOTE TO PARENTS

Introductory phrases are common starts to simple sentences. They consist of a pronoun and a verb.

These introductory phrases are commonly used in beginner readers. The words included in these phrases are the most frequently used words in texts. The purpose of the phrases is to develop automaticity in quickly recalling common words read in context through excessive repetition. Instantly recognising these phrases will help them read of simple sentences with less effort. This practice enables them to get to reading level 5 efficiently.

To assist your child in automatically recognising the introductory phrases, we ask that they read through the page of phrases in this folder every day. A star indicates a new introductory phrase. Phrases are continuously revised throughout the sheets. In addition to the introductory phrases, there are different endings to form simple sentences. If your child does not recognise the other word(s) in the sentence, they can sound them out. When they know the whole page they've been assigned, we will test them. If they are ready, we will then give them a new sheet.

There are 12 sheets for your child to work through. These provide a strong strategy for developing your child's reading ability.

Thank you for your support.
