Test Procedure:
Print and distribute grid for answers.
Students complete name and date.
Teacher calls word, places it in a sentence for meaning, and repeats the word.
Students write the word.
If the list is:
Too hard (3 or more errors) try them on an easier level.
Too easy (less than 3 errors) try them on a harder level.
The teacher may use their discretion to stop testing at any time if it is obvious that the student should be tested on an easier level.
Working level is the level that is the lowest level they score 3 or more errors on.
Enter results into the relevant Analysis Grid.
Notate lists to be taught, skipped or completed for homework.
Order books.
