# POWERUP READING PROFICIENCY

Build proficient readers and confident learners in grades 6 and above.

> Accelerate lasting student progress in essential literacy skills.

> Help students develop the skills they need to succeed in their content-area classes.

> Engage, challenge, and motivate students to take ownership of their learning.

Lexia PowerUp Literacy™

is designed to enhance core English Language Arts instruction for non-proficient readers in grades 6 and above.
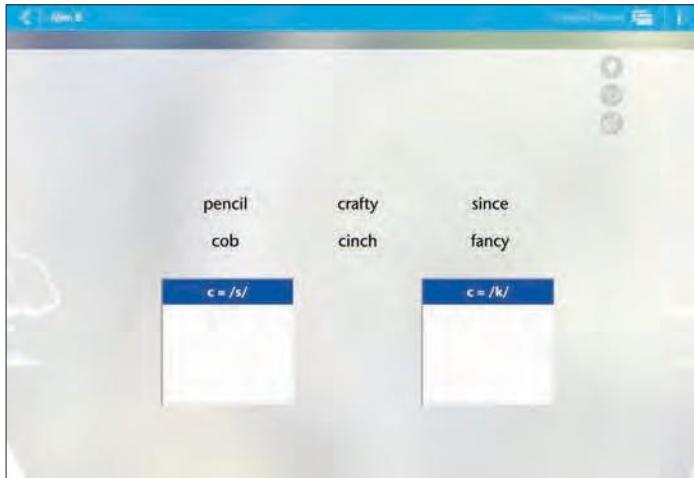

POWERUP PERSONALIZED LEARNING

Personalized instruction meets students at their current skill level in each of the three strands: Word Study, Grammar, and Comprehension.

With more than 60 unique initial placement combinations, **Lexia PowerUp Literacy** delivers an unprecedented level of personalization to identify and address the diverse needs of non-proficient readers.

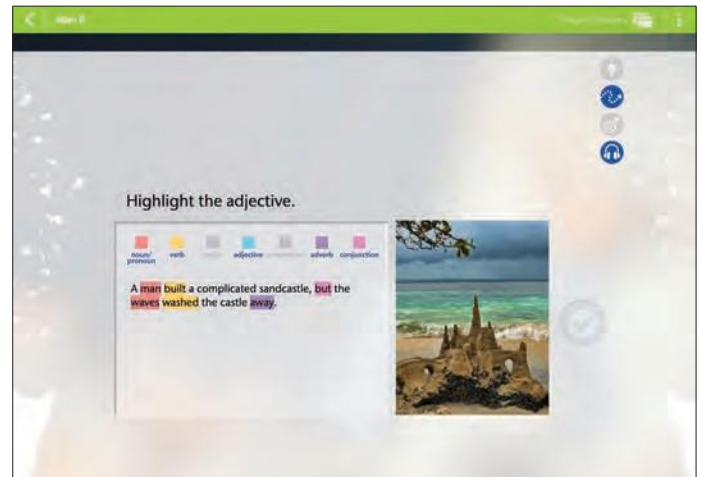

Word Study

Students develop automatic word recognition skills and an understanding of multisyllabic academic vocabulary words.

Grammar

Students learn how words function in sentences, as well as how various text genres are structured, in order to further develop their comprehension and composition skills.

Comprehension

Students develop skills and strategies to analyze literary and informational texts of increasing complexity for deep meaning and understanding.

POWERUP STUDENT ENGAGEMENT

Motivate and challenge students to take ownership of their learning in an engaging game-like environment.

In addition to a range of relevant, high-interest authentic texts, **Lexia PowerUp Literacy** includes polling questions, text trailer videos, and game-based motivational elements.

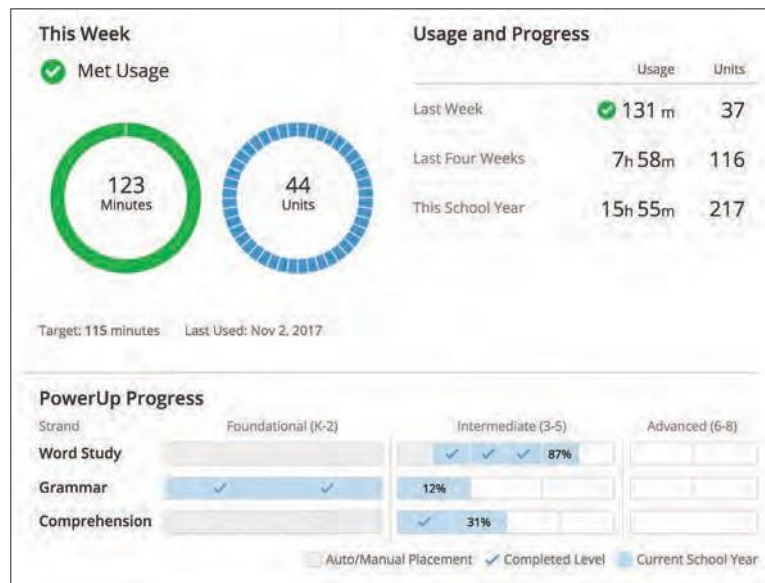

The student dashboard helps students set and manage goals, and encourages them to take ownership of their learning.

POWERUP TEACHER CONFIDENCE

Empower the teachers who are essential to student success with the knowledge and tools they need to prioritize, plan, and deliver individualized instruction.

Teachers can confidently deliver the exact instruction each student needs with embedded progress monitoring and lessons at point of use.

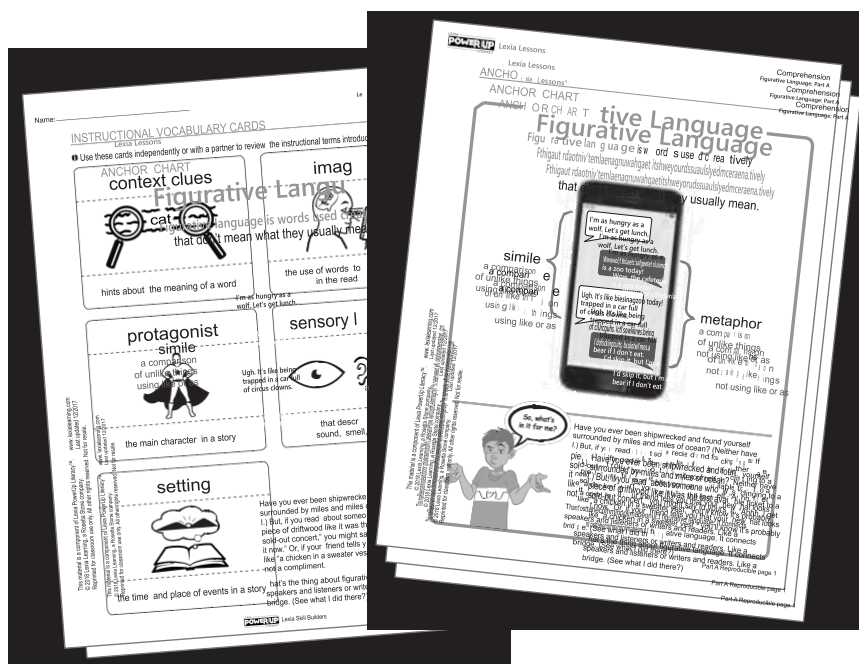

Actionable Data

Easy-to-interpret reports help teachers monitor student usage, track progress through the content, and quickly identity areas of difficulty.

Just-right Resources

Based on student performance in the program, the myLexia® educator platform automatically recommends offline lessons for direct, teacher-led instruction and activities for independent and peer practice.

POWERUP COLLEGE AND CAREER READINESS

Prepare students to comprehend and engage with increasingly complex texts.

Lexia PowerUp Literacy addresses gaps in foundational skills while building more advanced critical thinking skills that help students succeed across the curriculum.
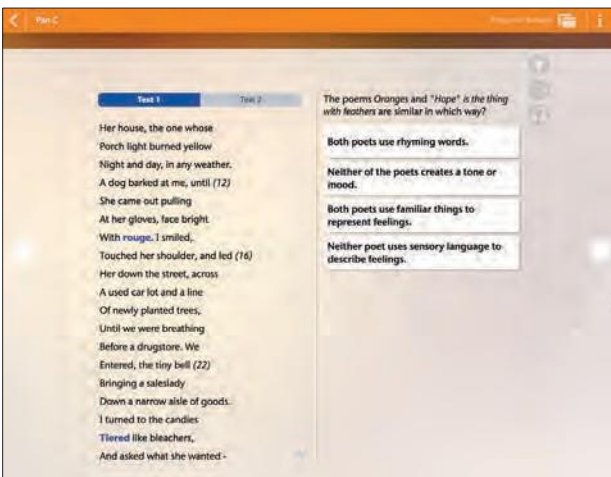

Authentic Text

Comprehension activities feature authentic informational and narrative texts, in addition to drama and poetry.

Embedded Instruction

Instructional videos and scaffolding help students access grade-level standards.

Critical Thinking

Students practice close reading and comparing two complex texts.
